

Ursula Laa

Monash University, 19 Rainforest Walk, Clayton, VIC 3800, Australia
Mail: ursula.laa@monash.edu
Web: <https://uschilaa.github.io>
ORCID: 0000-0002-0249-6439

PROFESSIONAL EXPERIENCE **Research fellow**, Department of Econometrics and Business Statistics & School of Physics and Astronomy since 2017
Topic: Statistical visualisation methods for theoretical particle physics
(Advisors: Dianne Cook, German Valencia)
Monash University, Australia

EDUCATION **PhD**, Theoretical Particle Physics 2014–2017
Topic: Understanding LHC Searches for new Physics with Simplified Models
(Supervisors: Genevieve Belanger, Sabine Kraml)
LPSC Grenoble, France

 Master of Science, Physics 2011–2014
Topic: Interpretation of the CMS and ATLAS Simplified Models Results
University of Vienna and HEPHY, Austria
with distinction

 Bachelor of Science, Physics 2007–2011
University of Vienna, Austria
with distinction

RESEARCH VISITS Physics Department and Data Science Centre, New York University, USA Nov 2019
Statistics Department, University of Pennsylvania, USA Nov 2019
Theory Group of LPSC Grenoble, France Mar–Jul 2014
ERASMUS Exchange, Aarhus University, Denmark 2010–2011

AWARDS & SCHOLARSHIPS **ACEMS** Centre of Excellence, associate investigator since 2019
ENIGMASS Cluster of Excellence, PhD fellowship 2014–2017
Deans List Faculty of Physics, University of Vienna 2014
(for outstanding academic performance during the Master’s program)
Zonta Club Wien I-Postgraduate Award 2013
FEMtech Scholarship for Master’s thesis internship 2013

PUBLICATIONS

JOURNAL PUBLICATIONS **Note:** authors are sorted alphabetically for particle physics publications (standard in the field), while they are sorted by contribution for publications in statistics journals (marked by highlighting my name in bold font).

A slice tour for finding hollowness in high-dimensional data
U. Laa, D. Cook, G. Valencia
tentatively accepted for publication in JCGS, arXiv:1910.10854

Fitting in or odd one out? Pulls vs residual responses in $b \rightarrow s\ell^+\ell^-$

B. Capdevila, U. Laa, G. Valencia
under review, arXiv:1908.03338

Using tours to visually investigate properties of new projection pursuit indexes with application to problems in physics

U. Laa, D. Cook

to appear in Computational Statistics, <https://doi.org/10.1007/s00180-020-00954-8>

Connecting R with D3 for dynamic graphics, to explore multivariate data with tours

M. Kipp, U. Laa, D. Cook

The R Journal (2019) 11:1, <https://doi.org/10.32614/RJ-2019-002>

SModelS v1.2: long-lived particles, combination of signal regions, and other novelties

F. Ambrogio, J. Dutta, J. Heisig, S. Kraml, S. Kulkarni, U. Laa, A. Lessa, et al.

to appear in CPC, <https://doi.org/10.1016/j.cpc.2019.07.013>

Anatomy of a six-parameter fit to the $b \rightarrow s\ell^+\ell^-$ anomalies

B. Capdevila, U. Laa, G. Valencia

Eur.Phys.J. C79 (2019) no.6, 462, <https://doi.org/10.1140/epjc/s10052-019-6944-8>

Dynamical projections for the visualisation of PDFSense data

D. Cook, U. Laa, G. Valencia

Eur.Phys.J. C78 (2018) no.9, 742, <https://doi.org/10.1140/epjc/s10052-018-6205-2>

On the coverage of the pMSSM by simplified model results

F. Ambrogio, S. Kraml, S. Kulkarni, U. Laa, A. Lessa, W. Waltenberger

Eur.Phys.J. C78 (2018) no.3, 215, <https://doi.org/10.1140/epjc/s10052-018-5660-0>

Simplified dark matter models with a spin-2 mediator at the LHC

S. Kraml, U. Laa, K. Mawatari, K. Yamashita

Eur.Phys.J. C77 (2017) no.5, 326, <https://doi.org/10.1140/epjc/s10052-017-4871-0>

SModels v1.1 user manual: Improving simplified model constraints with efficiency maps

F. Ambrogio, S. Kraml, S. Kulkarni, U. Laa, A. Lessa, V. Magerl, J. Sonneveld, M. Traub, W. Waltenberger

CPC 227 (2018) 72-98, <https://doi.org/10.1016/j.cpc.2018.02.007>

Collider limits on new physics within micrOMEGAs

D. Barducci, G. Belanger, J. Bernon, F. Boudjema, J. Da Silva, S. Kraml, U. Laa, A. Pukhov

CPC 222 (2018) 327-338, <https://doi.org/10.1016/j.cpc.2017.08.028>

Scalar versus fermionic top partner interpretations of $t\bar{t} + E_T^{\text{miss}}$ searches at the LHC

S. Kraml, U. Laa, L. Panizzi, H. Prager

JHEP 1611 (2016) 107, [https://doi.org/10.1007/JHEP11\(2016\)107](https://doi.org/10.1007/JHEP11(2016)107)

Probing U(1) extensions of the MSSM at the LHC Run I and in dark matter searches

G. Belanger, J. Da Silva, U. Laa, A. Pukhov

JHEP 1509 (2015) 151, [https://doi.org/10.1007/JHEP09\(2015\)151](https://doi.org/10.1007/JHEP09(2015)151)

Constraints on sneutrino dark matter from LHC Run 1

C. Arina, M. E. Cabrera Catalan, S. Kraml, S. Kulkarni, U. Laa

JHEP 1505 (2015) 142, [https://doi.org/10.1007/JHEP05\(2015\)142](https://doi.org/10.1007/JHEP05(2015)142)

	SModelS: A tool for interpreting simplified-model results from the LHC and its application to supersymmetry S. Kraml, S. Kulkarni, U. Laa, A. Lessa, W. Magerl, D. Proschofsky-Spindler, W. Waltenberger Eur.Phys.J. C74 (2014) 2868, https://doi.org/10.1140/epjc/s10052-014-2868-5	
SOFTWARE	Main developer of the R packages spinebil (for evaluating the performance of projection pursuit index functions) and galahr (a GUI for the tourr package) Maintainer of the R packages binostics (calculation of graph-theoretic scagnostics) and tourrGUID3 (D3 based tourr GUI) Contributor to the R package tourr (implementation of tour algorithms in R) Developer of the Python package SModelS for re-interpretation of results in particle physics	
CONFERENCE PAPERS & PREPRINTS	High-dimensional data visualisation with the grand tour U. Laa to appear in the proceedings of CHEP 2019, EPJ Web of Conferences SModelS – new developments and applications U. Laa PoS ICHEP2018 (2019) 516 Les Houches 2017: Physics at TeV Colliders New Physics Working Group arXiv:1803.10379 On the coverage of the pMSSM by simplified model results U. Laa PoS EPS-HEP2017 (2017) 300, arXiv:1709.10386 Les Houches 2015: Physics at TeV colliders – new physics working group report arXiv:1605.02684 Interpreting LHC searches for new physics with SModelS U. Laa PoS EPS-HEP2015 (2015) 105, arXiv:1510.01999 SModelS v1.0: a short user guide S. Kraml, S. Kulkarni, U. Laa, A. Lessa, V. Magerl, W. Magerl, D. Proschofsky-Spindler, M. Traub, W. Waltenberger arXiv:1412.1745	
TEACHING		
TEACHING EXPERIENCE	Tutor at Monash University Statistical Learning Supervision of computational labs	from 2020
	Practical Exercises at University Grenoble Alpes Nuclear physics for Radioprotection Master Nuclear physics for Physics Master Muon measurements for Physics Bachelor	2015–2017
	Tutor at University of Vienna Weekly seminar for first semester physics students	2011–2013

SUPERVISION	Co-advised several PhD, Honours and undergraduate research students	
	Main advisor for an Honours project on machine learning and visualisation for particle physics searches and in a summer research project on clustering and visualisation	

PRESENTATIONS

COLLOQUIA & WORKSHOPS	Data Visualisation New York Meetup	Nov 2019
	High-dimensional data visualisation with tours	
	Technical Talk	Sep 2019
	ARC Centre of Excellence for Mathematical & Statistical Frontiers An Introduction to the Visualisation Ecosystem in R (with Stuart Lee)	
	Colloquium	Apr 2019
	School of Physics and Astronomy, Monash University, Australia High-dimensional data visualisation for physics applications	
	Workshop	Mar 2019
	Business Analytics Seminar, Monash University, Australia An Introduction to gganimate (with Mitch O'Hara-Wild and Nick Spyrisson)	
CONFERENCE TALKS & POSTERS	Conference on Computing in High Energy and Nuclear Physics	Nov 2019
	Adelaide, Australia Talk: High-dimensional data visualisation with the grand tour	
	UseR!	July 2019
	Toulouse, France Talk: Visualising high-dimensional data: new developments of the tourr package using Shiny and plotly	
	Visualisation Matters	May 2019
	Canberra, Australia Invited talk: Visualisation in Physics	
	Australian Meeting on Accelerator-Based Particle Physics	Feb 2019
	Melbourne, Australia Talk: Anatomy of a six-parameter fit to the $b \rightarrow s\ell^+\ell^-$ anomalies	
	International Conference on High Energy Physics	Aug 2018
	Seoul, Korea Talk: SModelS - new developments and applications	
	European Physical Society Conference on High Energy Physics	July 2017
	Venice, Italy Talk: On the coverage of the pMSSM by Simplified Model results	
	Rencontres de Physique des Particules	April 2017
	Centre de Physique des Particules de Marseille, France Talk: Simplified dark matter models with a spin-2 mediator at the LHC	
	Open Questions in Particle Physics and Cosmology	April 2017
	Convention Centre by the Observatory, Goettingen, Germany Talk: Simplified dark matter models with a spin-2 mediator at the LHC	
	(Re)interpreting the results of new physics searches at the LHC	Dec 2016
	CERN, Geneva, Switzerland Talk: Scalar versus fermionic top partner interpretations of $t\bar{t} + E_T^{miss}$ searches at the LHC	

	(Re)interpreting the results of new physics searches at the LHC CERN, Geneva, Switzerland Talk: On the coverage of the pMSSM by Simplified Model results	Jun 2016
	GDR Terascale Subatech, Nantes, France Talk: SModelS & Simplified Model Sensitivity to Spin Structure	May 2016
	Dark Matter at the Large Hadron Collider 2016 Amsterdam, Netherlands Poster: Interpreting LHC searches for new physics with SModelS	Mar-Apr 2016
	SUSY 2015 Lake Tahoe, California, USA Talk: Constraints on sneutrino dark matter from LHC Run 1	Aug 2015
	European Physical Society Conference on High Energy Physics Vienna, Austria Poster: Interpreting LHC searches for new physics with SModelS	Jul 2015
	GDR Terascale Saclay, France Talk: Constraints on sneutrino dark matter from LHC Run 1	Mar-Apr 2015
	GDR Terascale Palaiseau, France Talk: SModelS – Interpreting Simplified Model Results	Jun 2014
	ÖPG/SPS 2013 Annual Meeting Linz, Austria Talk: Application of CMS and ATLAS Simplified Models Results to Theories Beyond the Standard Model	Sept 2013
SEMINARS	IFAE Seminar Barcelona, Spain High-dimensional data visualisation for physics applications	July 2019
	HEPHY Seminar Vienna, Austria High-dimensional data visualisation for physics applications	July 2019
	Particle Physics Pheno Seminar University of Milan, Italy High-dimensional data visualisation for physics applications	June 2019
	LPSC Theory Seminar Grenoble, France High-dimensional data visualisation for physics applications	June 2019
	Feast-of-Facts Seminar RSAA (ANU) Canberra, Australia High-dimensional data visualisation for physics applications	May 2019
	Seminar Ewha Womans University, Seoul, Korea Statistical visualisation of particle physics data: Sensitivity of parton distribution functions	Aug 2018
	Business Analytics Seminar Monash University, Australia Statistical visualisation of particle physics data	June 2018

	Particle Physics Seminar Monash University, Australia Understanding LHC searches for new physics with simplified models	March 2018
	PhD Thesis Defence LPSC Grenoble, France Understanding LHC searches for new physics with simplified models	Sept 2017
	Doctoral Seminar LPSC Grenoble, France Interpreting LHC searches for new physics with SModelS	Mar 2016
SERVICE	Referee for Physical Review D Seminar organiser for Monash Business Analytics (from 2020)	
COMPUTING	Python, R, git, \LaTeX Author of several open-source software packages	
LANGUAGES	German (native speaker) English (fluent) French (conversant)	
NATIONALITY	Austrian
